

Piko Assessments Tue Sep 25 18:42:41 HST 2018

Name	Pacific Islands Regional Climate Assessment (PIRCA)
Lead Agencies	PaCIS, Pacific RISA, PICCC
Contacts	John Marra, NOAA/NCDC/PaCIS, john.marra@noaa.gov Melissa Finucane, EWC, Pacific RISA, finucanm@eastwestcenter.org Victoria Keener, EWC, Pacific RISA, keenerv@eastwestcenter.org Deanna Spooner, PICCC, deanna.spooner@piccc.net
Partnering Agencies	PRiMO, NOAA, USGS, USFWS, WRCC, University of Hawaii, University of Guam
Types	<ul style="list-style-type: none"> - Needs And Capabilities - Needs - Capacity - Capabilities
Area of Applicability	- National and Regional
Focus Area	<ul style="list-style-type: none"> - Fresh Water Resources and Drought - Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience - Marine and Terrestrial Ecosystems
Regions	<ul style="list-style-type: none"> - Central North Pacific - State Of Hawaii - Western North Pacific - CNMI - FSM - Guam - Palau - RMI - South Pacific - American Samoa
Status	- Completed

Description	Climate Change and Pacific Islands: Indicators and Impacts is a report that was created under the auspices of the Pacific Islands Regional Climate Assessment (PIRCA), a collaborative endeavor involving nearly 100 independent experts. In support of the National Climate Assessment (NCA), the report assesses the state of climate knowledge, impacts, and adaptive capacity in three sub-regions: (1) the Western North Pacific (CNMI, Guam, Palau, FSM, RMI); (2) the Central North Pacific (Hawaii); and (3) the Central South Pacific (American Samoa). The framework for the assessment includes three focus areas: (1) preserving fresh water resources and minimizing the impacts of drought; (2) fostering community resilience to the impacts of sea level rise, coastal inundation, and extreme weather; and (3) sustaining marine, freshwater and terrestrial ecosystems.
