

Piko Assessments Tue Nov 20 23:48:06 HST 2018

Name	Climate Change and Health Vulnerability Assessment and Adaptation Planning Carried Out in 11 Pacific Island Countries
Lead Agencies	World Health Organization, Division of Pacific Technical Support - South Pacific Office
Contacts	Dr. Lachlan McIver, Climate Change & Health Officer, mciverl@wpro.who.int
Types	- Risk and Vulnerability or Problem-focused
Area of Applicability	- National and Regional
Focus Area	- Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
Regions	<ul style="list-style-type: none"> <li>- Western North Pacific</li> <li>- FSM</li> <li>- Palau</li> <li>- RMI</li> <li>- South Pacific</li> <li>- Fiji</li> <li>- Samoa</li> <li>- Tonga</li> <li>- Other South Pacific</li> </ul>
Status	- Completed
Description	Mixed-methods assessments of health impacts of climate change, based on quantitative analyses of available data on historical climate and climate-sensitive disease patterns, as well as wide-ranging stakeholder consultations to determine health-related vulnerabilities to climate variability and change. This project was carried out in 11 Pacific island countries between 2010 and 2012.
