<b>Name</b>	Climate Adaptation Knowledge Exchange (CAKE)
<b>Capability Area</b>	- Understanding Climate Impacts and Informing Adaptation
<b>Focus Area</b>	- Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience - Marine and Terrestrial Ecosystems
<b>Regions</b>	- Central North Pacific - Western North Pacific - South Pacific - Pacific Basin - Global
<b>Non Physical</b>	- Data, Products, and Tools - Non-physical - Biological
<b>Sectors</b>	- Public Health and Safety - Community Planning and Development - Ecosystems
<b>Description</b>	CAKE is aimed at building a shared knowledge base for managing natural systems in the face of rapid climate change. CAKE brings together the recognized leadership of EcoAdapt in developing the concepts and practices of climate adaptation with Island Press as the leading publisher of solutions-based environmental information to offer the most valuable, up-to-date, and authoritative materials on the subject. It helps users to get beyond the limitations of their time and the unwieldy thicket of books, papers and articles by vetting and clearly organizing the best information available, building a community via an interactive online platform, creating a directory of practitioners to share knowledge and strategies, and identifying and explaining data tools and information available from other sites.
