

Data and Products Fri Jan 19 01:32:53 HST 2018

| | |
|-------------------|--|
| Name | Climate Information Retrieval for Pacific Islands |
| Capability Area | - Understanding Climate Variability and Change |
| Focus Area | - Fresh Water Resources and Drought |
| Regions | <ul style="list-style-type: none"> - Central North Pacific - Pacific Remote Islands - Western North Pacific - CNMI - FSM - Guam - Palau - RMI - South Pacific - American Samoa |
| Data/Physical | <ul style="list-style-type: none"> - Data - Physical - In-situ Observations - Atmospheric (e.g., Air Temperature, Rainfall, Wind Speed and Direction) |
| Products/Physical | <ul style="list-style-type: none"> - Products - Physical - Hindcasts (climatologies) - Atmospheric (e.g., Air Temperature, Rainfall, Wind Speed and Direction) |
| Sectors | <ul style="list-style-type: none"> - Fresh Water Resources - Community Planning and Development - Agriculture and Fisheries - Ecosystems |
| Description | Documentation and analysis for Temperature and Precipitation Summary (TAPS), Wetlands Determination (WETS), Frost Free Days (FROST), and Growth Season (GROWTH). |
