Sectors	- Public Health and Safety - Fresh Water Resources - Community Planning and Development - Agriculture and Fisheries - Ecosystems

Description	As a key initiative of the Pacific Climate Change Science Program, "Pacific Climate Futures" assists decision makers and planners in 15 partner countries of the Asia-Pacific region in understanding how their climate has changed and how it may change in the future. The Pacific Climate Futures web-tool has been designed to provide information and guidance in the generation of national climate projections and facilitate the generation of data for detailed impact and risk assessments.
