Name	Adaptation Partnership
Web	http://www.adaptationpartnership.org/
Description	The goal of the Partnership is to encourage effective adaptation by serving as an interim platform to catalyze action and foster communication among the various institutions and actors engaged in the effort to scale up adaptation and resilience around the world. The Partnership will synthesize lessons learned and good practices, highlight needs and priorities, and identify opportunities for cooperation and alignment of support to build resilience to the adverse effects of climate change. We will also enhance communities of practice engaged in the adaptation effort.
