Piko Partners & Programs Thu Mar 28 00:18:25 HST 2024

Name	Center for Operational Oceanographic Products and Services
Web	http://tidesandcurrents.noaa.gov/
Description	The Center for Operational Oceanographic Products and Services and its predecessors have gathered oceanographic data along U.S. coasts for over 200 years to protect life, property, and the environment. Serving both the public and other government agencies, CO-OPS is the authoritative source for accurate, reliable, and timely water-level and current measurements. CO-OPS initiatives include: Enhancing Navigation; Supporting Coastal Zone Management; Assisting Coastal Hazard Mitigation; and Monitoring Climate Change.
