Name	Pacific Islands Fisheries Science Center
Web	http://www.pifsc.noaa.gov/
Description	<p>The Pacific Islands Fisheries Science Center of the National Marine Fisheries Service (NMFS) is part of NOAA. The Center administers scientific research and monitoring programs that support the domestic and international conservation and management of living marine resources. The Center has taken a leading role in marine research on ecosystems, both in the insular and pelagic environments. It is implementing a multidisciplinary research strategy including an ecosystem observation system and scientific analysis to support ecosystem approaches to management and restoration of living marine resources. It conducts a wide range of activities including resource surveys and stock assessments, fishery monitoring, economic and sociological studies, oceanographic research and monitoring, critical habitat evaluation, life history and ecology studies, and advanced oceanographic and ecosystem modeling and simulations.</p>
Logo	 <p>The logo is a blue rectangular banner. On the left is the NOAA logo (a white circle with a blue wave). To its right is the text "Pacific Islands Fisheries Science Center" in white, with "NOAA National Marine Fisheries Service" in smaller white text below it. The background of the banner shows a blue ocean with white waves and silhouettes of fish.</p>
