Name	NWS Climate Prediction Center
Web	http://www.cpc.ncep.noaa.gov/
Description	The Climate Prediction Center's products are operational predictions of climate variability, real-time monitoring of climate and the required data bases, and assessments of the origins of major climate anomalies. The products cover time scales from a week to seasons, extending into the future as far as technically feasible, and cover the land, the ocean, and the atmosphere, extending into the stratosphere.
Logo	The logo for the National Weather Service Climate Prediction Center. It features a blue circular emblem with a white stylized wave and the word "NOAA" inside. To the right of the emblem, the text "National Weather Service" is written in a smaller font, and "Climate Prediction Center" is written in a larger, bold font.
Contact	Wayne Higgins, wayne.higgins@noaa.gov , Director
