Piko Partners & Programs Thu Mar 28 23:45:02 HST 2024

Name	NWS Climate Prediction Center
Web	http://www.cpc.ncep.noaa.gov/
Description	The Climate Prediction Center's products are operational predictions of climate variability, real-time monitoring of climate and the required data bases, and assessments of the origins of major climate anomalies. The products cover time scales from a week to seasons, extending into the future as far as technically feasible, and cover the land, the ocean, and the atmosphere, extending into the stratosphere.
