<b>Name</b>	Pacific Climate Information System
<b>Web</b>	<a href="http://www.pacificcis.org/">http://www.pacificcis.org/</a>
<b>Description</b>	The Pacific Climate Information System provides a programmatic framework to bring together ongoing and future climate observations, operational forecasting services and climate projections, research, assessment, data management, outreach, and education - an integrated system of climate services - to address the needs of the Pacific Islands. PaCIS is composed of representatives of regional, national and local institutions and programs in the Pacific, as well as selected individuals from other regions. It provides a forum for sharing the expertise, experience, and perspective needed to guide integrated program planning and product development.
<b>Logo</b>	The logo for the Pacific Climate Information System (PaCIS) features the word "PaCIS" in a large, bold, sans-serif font. The letters are filled with a vibrant, multi-colored gradient that resembles a sunset or a tropical sky, transitioning from dark blue at the top to bright yellow and orange at the bottom. Below the main text, the words "PACIFIC CLIMATE INFORMATION SYSTEM" are written in a smaller, black, all-caps, sans-serif font.
