Name	Pacific Islands Climate Change Cooperative
Web	http://piccc.net/
Description	The PICCC provides a range of scientific and technical tools to help managers in Hawaii, the Mariana Islands, American Samoa, and other Pacific Island groups make informed decisions for landscape-scale conservation of natural and cultural resources including climate models at the archipelagic and island scales, ecological response models, and implementation and monitoring strategies for island species, resources, and communities. Our goal is to help managers reach explicit biocultural conservation objectives in the face of climate change and ongoing threats such as fire, land conservation, and invasive species.
Logo	<p>The logo for the Pacific Islands Climate Change Cooperative (PICCC) features a stylized blue triangle on the left, composed of several parallel lines. To the right of the triangle, the letters "PICCC" are written in a large, bold, blue serif font. Below "PICCC", the full name "Pacific Islands Climate Change Cooperative" is written in a smaller, blue, sans-serif font.</p>
