Piko Partners & Programs Thu Mar 28 15:18:05 HST 2024

| Name | Pacific Islands Climate Change Cooperative |
|---|---|
| Web | http://piccc.net/ |
| Description | The PICCC provides a range of scientific and technical tools to help managers in Hawaii, the Mariana Islands, American Samoa, and other Pacific Island groups make informed decisions for landscape-scale conservation of natural and cultural resources including climate models at the archipelagic and island scales, ecological response models, and implementation and monitoring strategies for island species, resources, and communities. Our goal is to help managers reach explicit biocultural conservation objectives in the face of climate change and ongoing threats such as fire, land conservation, and invasive species. |
