Name	Pacific Coastal & Marine Science Center
Web	<a href="http://walrus.wr.usgs.gov/">http://walrus.wr.usgs.gov/</a>
Description	The Pacific Coastal & Marine Science Center of the USGS studies the coasts of the western United States, including Alaska and Hawaii. Team scientists conduct research, monitor processes, and develop information about coastal and marine geologic hazards, environmental conditions, habitats, and energy and mineral resources. This information helps managers at all levels of government and in the private sector make informed decisions about the use and protection of national coastal and ocean resources.
Logo	 The logo for the USGS Pacific Coastal & Marine Science Center. It features the USGS logo (a stylized eagle head) and the text "USGS science for a changing world" on the left. On the right, there is a colorful map of the Pacific coast of the United States, with colors ranging from blue to green. Below the map, the text "Pacific Coastal & Marine Science Center" is written in white on a dark blue background.
Types	- Federal
