Name	Pacific Coastal & Marine Science Center
Web	<a href="http://walrus.wr.usgs.gov/">http://walrus.wr.usgs.gov/</a>
Description	The Pacific Coastal & Marine Science Center of the USGS studies the coasts of the western United States, including Alaska and Hawaii. Team scientists conduct research, monitor processes, and develop information about coastal and marine geologic hazards, environmental conditions, habitats, and energy and mineral resources. This information helps managers at all levels of government and in the private sector make informed decisions about the use and protection of national coastal and ocean resources.
Logo	 The logo for the Pacific Coastal & Marine Science Center features the USGS logo (a stylized eagle head) and the text "USGS science for a changing world" on the left. To the right is a graphic of a coastline with blue and green waves. Below the graphic is a dark blue bar with the text "Pacific Coastal & Marine Science Center" in white.
Types	- Federal
Contact	Curt Storlazzi, <a href="mailto:cstorlazzi@usgs.gov">cstorlazzi@usgs.gov</a> , Research Geologist & Oceanographer
