Name	Water and Environmental Research Institute
Web	http://www.weriguam.org/about-weri
Description	The Water and Environmental Research Institute of the Western Pacific was established at the University of Guam in May 1975. The role of the Institute is to facilitate and conduct high quality research that addresses water problems and water-related phenomena; train students, teachers and future water resource professionals, and disseminate research results to the community at large.
Logo	The logo for the Water and Environmental Research Institute (WERI) of the University of Guam. It features a blue water droplet on the left containing a white palm tree. To the right, the word "WERI" is written in large, bold, blue letters. Below this, the full name "WATER AND ENVIRONMENTAL RESEARCH INSTITUTE OF THE WESTERN PACIFIC UNIVERSITY OF GUAM" is written in smaller, blue, all-caps letters. The background of the logo is a light blue, wavy pattern representing water.
