| <b>Name</b> | Center for Island Climate Adaptation and Policy  |
| Web         | <a href="http://seagrant.soest.hawaii.edu/center-island-climate-adaptation-and-policy-5">http://seagrant.soest.hawaii.edu/center-island-climate-adaptation-and-policy-5</a>  |
| Description | ICAP facilitates a sustainable, climate-conscious future for Hawaii, the Pacific, and global island communities. The Center produces innovative, interdisciplinary research and real-world solutions to island decision-makers in the public and private sectors. As a focal point for University of Hawaii climate expertise, the Center serves as a two-way conduit between the university and island communities to catalyze climate change adaptation and resiliency. ICAP's research and projects are organized around four interrelated focus areas: Policy; Outreach; Collaboration; and Education. |
| Logo        |  The logo consists of a circular emblem on the left containing a stylized green plant with two leaves growing from a blue and green base. To the right of the emblem, the text "CENTER FOR ISLAND CLIMATE ADAPTATION & POLICY" is displayed in a bold, blue, sans-serif font. <p><b>CENTER FOR<br/>ISLAND CLIMATE<br/>ADAPTATION &amp; POLICY</b></p>  |
