Description	UH Sea Grant works in partnership with the University of Hawaii's School of Ocean and Earth Science and Technology (SOEST) and the National Oceanic and Atmospheric Administration (NOAA) to identify Hawaii's critical resource management issues and guide cutting-edge scientific research to address these challenges. UH Sea Grant supports an innovative program of research, extension, education, and communication services directed to the improved understanding and stewardship of coastal and marine resources. Realizing the necessity of collaboration to address coastal resource issues, UH Sea Grant also provides links between academia, federal, state and local government agencies, industries, and local community members.
