|--------------------------------------|---|
| Name | Development of Adaptation Strategies and Community-based Risk Management Tools for Four Vulnerable Communities in the Cook Islands |
| Capability Area: Impacts/Adaptations | <ul style="list-style-type: none"> - Understanding Climate Impacts and Informing Adaptation - Climate Adaptation - Training and Capacity Building, Education, Outreach - Decision Support Tools |
| Sectors | <ul style="list-style-type: none"> - Energy - Transportation/Communication and Commerce - Community Planning and Development |
| Status | - Completed |
| Focus Area | - Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience |
| Regions | <ul style="list-style-type: none"> - South Pacific - Cook Islands |
| Description | The project will incorporate community-based impact and adaptation strategies within four vulnerable communities on Aitutaki and Rarotonga in the Cook Islands. |
| Objectives/Outcomes | The project will develop replicable community-based adaptation risk management tools to minimize risks on critical infrastructure and service sectors, and help climate-proof vulnerable community investments. |
| Lead Agencies | WWF-Cook Islands |
| Partnering Agencies | The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see: http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf |
| Required Resources | ADB Small Grants activity |
| Projected Timelines | ?-2010 |
