| Objectives/Outcomes | Adaptation related actions include: 1) Pacific Climate Change Program - Will assist participating countries to improve their resilience to climate change impacts through mainstreaming of the adaptation in their policies, plans programs, and projects and strengthening their systems and capabilities to foster the adaptation process; and 2) Adaptation preparation - Up to five countries will be supported in preparing the implementation of climate change adaptation plans, including further capacity building. |
| Lead Agencies | ADB |
| Partnering Agencies | The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration.
