| Name | Coastal and Marine Resources Management in the Coral Triangle of the Pacific |
|---|---|
| Capability Area: Impacts/Adaptations | - Understanding Climate Impacts and Informing Adaptation<br>- Climate Adaptation<br>- Training and Capacity Building, Education, Outreach |
| Sectors | - Ecosystems |
| Status | - Ongoing |
| Focus Area | - Marine and Terrestrial Ecosystems |
| Regions | - Western North Pacific<br>- FSM<br>- Palau<br>- South Pacific<br>- Fiji<br>- PNG<br>- Solomon Islands<br>- Vanuatu |
| Description | To promote the conservation and sustainable use of globally significant coastal and marine resources in the Coral Triangle region through the introduction of integrated and ecosystem-based coastal and marine resources management in five Pacific countries. |
| Objectives/Outcomes | Includes the implementation of pilot adaptation measures to enhance resilience and increase capacity to respond to the adverse impacts of climate change on coastal and marine ecosystems. |
| Lead Agencies | ADB |
| Partnering Agencies | The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see: http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf |
| Required Resources | GEF-SPA; Japan; Australia; United States; Budget: US$27,568,183 |
| Projected Timelines | 2008-2013 |
