

Name	Papua New Guinea Disaster Risk Management and Climate Adaptation Program
Capability Area: Impacts/Adaptations	<ul style="list-style-type: none"> <li>- Understanding Climate Impacts and Informing Adaptation</li> <li>- Climate Adaptation</li> <li>- Training and Capacity Building, Education, Outreach</li> <li>- Assessment and Evaluation</li> </ul>
Sectors	<ul style="list-style-type: none"> <li>- Transportation/Communication and Commerce</li> <li>- Agriculture and Fisheries</li> </ul>
Status	- Ongoing
Focus Area	- Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
Regions	<ul style="list-style-type: none"> <li>- South Pacific</li> <li>- PNG</li> </ul>
Description	This project will concentrate on disaster risk management in the agriculture and transport sectors.
Objectives/Outcomes	The following activities will take place: 1) Agriculture: assessment of climate change and disaster risks; feasibility study for agriculture risk insurance for smallholder farmers; emergency response plan; crop selection; and strengthening rural agriculture networks; 2) Transport sector: integrated hazard risk information and mapping; capacity building; research; risk assessment; pilot mitigation measures.
Partnering Agencies	The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration.
