| Name | Adapting to Climate Change in the Coral Triangle (ACT) |
| Capability Area: Impacts/Adaptations | <ul style="list-style-type: none"> - Understanding Climate Impacts and Informing Adaptation - Climate Adaptation - Training and Capacity Building, Education, Outreach |
| Sectors | <ul style="list-style-type: none"> - Agriculture and Fisheries - Ecosystems |
| Status | - Proposed |
| Focus Area | - Marine and Terrestrial Ecosystems |
| Regions | <ul style="list-style-type: none"> - South Pacific - PNG - Solomon Islands - Other South Pacific |
| Description | Adapting to climate change in the Coral Triangle. This is a sub-project of the GEF Coral Triangle Initiative, a multi-agency partnership led by the ADB. |
| Lead Agencies | ADB, UNDP |
| Partnering Agencies | <p>The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see:</p> <p>http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf</p> |
| Required Resources | Proposed to the SCCF = US\$20 million; Proposed co-fin = US\$290 million |
