Name	Enhancing Adaptive Capacity of Communities to Climate Change-Related Floods in the North Coast and Islands Region of Papua New Guinea
Capability Area: Impacts/Adaptations	<ul style="list-style-type: none"> - Understanding Climate Impacts and Informing Adaptation - Climate Adaptation - Training and Capacity Building, Education, Outreach
Sectors	<ul style="list-style-type: none"> - Public Health and Safety - Community Planning and Development
Status	- Proposed
Focus Area	- Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
Regions	<ul style="list-style-type: none"> - South Pacific - PNG
Description	The overall objective is to strengthen the ability of communities in Papua New Guinea to make informed decisions about and adapt to climate change-driven hazards affecting both coastal and riverine communities. In particular, the program will focus on resilience towards occurrences of coastal and inland flooding events. Concept approved by Adaptation Fund Board in June 2011.
Objectives/Outcomes	The project concentrates on the following areas: 1) Adaptation measures in coastal and riverine communities; 2) Institutional strengthening; and 3) Awareness raising and knowledge management.
Lead Agencies	UNDP
Partnering Agencies	The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see: http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf
Required Resources	US\$5,227,530
Projected Timelines	2011-2015
