<b>Name</b>	Improving the Adaptive Capacity of Communities in the Solomon Islands to the Impacts of Climate Change and Climate Variability in the Health Sector
<b>Capability Area: Impacts/Adaptations</b>	<ul style="list-style-type: none"> <li>- Understanding Climate Impacts and Informing Adaptation</li> <li>- Climate Adaptation</li> <li>- Training and Capacity Building, Education, Outreach</li> </ul>
<b>Sectors</b>	<ul style="list-style-type: none"> <li>- Public Health and Safety</li> <li>- Community Planning and Development</li> </ul>
<b>Status</b>	- Proposed
<b>Focus Area</b>	- Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
<b>Regions</b>	<ul style="list-style-type: none"> <li>- South Pacific</li> <li>- Solomon Islands</li> </ul>
<b>Description</b>	Improving the adaptive capacity of communities in the Solomon Islands to the impacts of climate change and climate variability in the health sector.
<b>Partnering Agencies</b>	<p>The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see:</p> <p><a href="http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf">http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf</a></p>
<b>Required Resources</b>	Proposed to the SCCF = US\$25,000; Proposed co-financing = TBC
