Projects and ActivitiesFri Mar 29 05:05:26 HST 2024

Name	Solomon Islands National Adaptation Programme of Action
Capability Area: Impacts/Adaptations	- Understanding Climate Impacts and Informing Adaptation - Climate Adaptation - Training and Capacity Building, Education, Outreach - Policies and Legislation
Sectors	- Public Health and Safety - Fresh Water Resources - Energy - Transportation/Communication and Commerce - Community Planning and Development - Social and Cultural Resources - Agriculture and Fisheries - Recreation and Tourism
Status	- Proposed
Focus Area	- Fresh Water Resources and Drought - Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
Regions	- South Pacific - Solomon Islands
Description	National Adaptation Programmes of Action (NAPAs) provide a process for Least Developed Countries (LDCs) to identify priority activities that respond to their urgent and immediate needs to adapt to climate change - those for which further delay would increase vulnerability and/or costs at a later stage.
Objectives/Outcomes	Proposed projects in the Solomon Islands NAPA are: 1) Managing the Impact of and Enhancing Resilience to Climate Change and Sea-Level Rise on Agriculture, Food Security, Water Supply and Sanitation, Human Settlements, Human Health and Education, Awareness and Information; 2) Climate Change Adaptation on Low-lying and Artificially Built Up Islands in Malaita and Temotu Provinces; 3) Waste Management; 4) Coastal Protection; 5) Fisheries and Marine Resources; 6) Infrastructure Development; and 7) Tourism.
Lead Agencies	UNDP, Solomon Islands Meteorological Service, Department of Communication, Aviation and Meteorology, Ministry of Culture, Tourism and Aviation

Partnering Agencies	The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see: http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf
Required Resources	GEF-LDCF
