Name	Kiribati Adaptation Program Phase III - Increasing Resilience to Climate Variability and Hazards
Capability Area: Impacts/Adaptations	- Understanding Climate Impacts and Informing Adaptation - Climate Adaptation - Training and Capacity Building, Education, Outreach - Policies and Legislation
Sectors	- Public Health and Safety - Fresh Water Resources - Energy - Transportation/Communication and Commerce - Community Planning and Development
Status	- Ongoing
Focus Area	- Fresh Water Resources and Drought - Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
Regions	- South Pacific - Kiribati
Description	The project aims to improve the climate resilience of Kiribati's government and communities by strengthening their capacity to manage climate change effects and improve the management and governance of water resources and infrastructure.
Objectives/Outcomes	Other objectives of the project include increasing the availability and quality of water at the community level and protecting targeted coastal areas from storm waves and flooding.
Lead Agencies	World Bank
Partnering Agencies	The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see: http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf
Required Resources	AusAID, LDCF, Japan Policy and Human Resources Development Fund, GFDRR, Government of Kiribati, Budget: US$10.8 million

Projected Timelines	2011-2016
