Projects and ActivitiesFri Mar 29 02:00:46 HST 2024

Name	Agricultural Food Crops Development in Kiribati
Capability Area: Impacts/Adaptations	- Understanding Climate Impacts and Informing Adaptation - Climate Adaptation - Training and Capacity Building, Education, Outreach
Sectors	- Community Planning and Development
Status	- Proposed
Focus Area	- Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
Regions	- South Pacific - Kiribati
Description	This project aims to maintain main existing gene banks: to increase and diversify food crop production throughout Kiribati; to make more people attracted to, see economic opportunities in, and engaged in varieties of agricultural systems; and to increase efforts at planning out and meeting support requirements for agricultural activities throughout the islands.
Lead Agencies	MELA
Partnering Agencies	The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see: http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf
Required Resources	Indicative costs: AUD 450,000; Local annual budget: AUD 1,105,230; Total NAPA costs over 3 years: AUD 1,555,230
Projected Timelines	3 years
