|---|---|
| Name | Agricultural Food Crops Development in Kiribati |
| Capability Area: Impacts/Adaptations | <ul style="list-style-type: none"> - Understanding Climate Impacts and Informing Adaptation - Climate Adaptation - Training and Capacity Building, Education, Outreach |
| Sectors | - Community Planning and Development |
| Status | - Proposed |
| Focus Area | - Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience |
| Regions | <ul style="list-style-type: none"> - South Pacific - Kiribati |
| Description | This project aims to maintain main existing gene banks: to increase and diversify food crop production throughout Kiribati; to make more people attracted to, see economic opportunities in, and engaged in varieties of agricultural systems; and to increase efforts at planning out and meeting support requirements for agricultural activities throughout the islands. |
| Lead Agencies | MELA |
| Partnering Agencies | The information for this activity was provided by the Adaptation Partnership from their Pacific chapter review of planned and existing adaptation activities. These reviews provide an inventory of regional and country-level adaptation activities and a summary of key adaptation priorities, based on documents like the UN Framework Convention on Climate Change's National Adaptation Programs of Action and National Communications. They also identify gaps and opportunities for scaling up and enhancing collaboration. For more information see: http://www.adaptationpartnership.org/images/stories/documents/asia - pacific regional and country profiles.pdf |
| Required Resources | Indicative costs: AUD 450,000; Local annual budget: AUD 1,105,230; Total NAPA costs over 3 years: AUD 1,555,230 |
| Projected Timelines | 3 years |
