<b>Name</b>	Options for Implementing the Hawaii State Planning Act Climate Change Adaptation Priority Guidelines - Draft Report
<b>Capability Area: Impacts/Adaptations</b>	<ul style="list-style-type: none"> <li>- Understanding Climate Impacts and Informing Adaptation</li> <li>- Climate Adaptation</li> <li>- Best Practices/Guidance</li> <li>- Policies and Legislation</li> </ul>
<b>Sectors</b>	<ul style="list-style-type: none"> <li>- Public Health and Safety</li> <li>- Energy</li> <li>- Transportation/Communication and Commerce</li> <li>- Community Planning and Development</li> <li>- Social and Cultural Resources</li> <li>- Agriculture and Fisheries</li> <li>- Recreation and Tourism</li> <li>- Ecosystems</li> </ul>
<b>Status</b>	- Ongoing
<b>Focus Area</b>	- Coastal Inundation/Sea Level Rise, Extreme Weather, and Community Resilience
<b>Regions</b>	<ul style="list-style-type: none"> <li>- Central North Pacific</li> <li>- State Of Hawaii</li> </ul>
<b>Description</b>	<p>The purpose of this report is to present to the Ocean Resources Management Plan (ORMP) Integrated Planning Committee of the State of Hawaii Office of Planning (OP) and to Hawaii's four Counties, a preliminary discussion of potential options for implementing the Climate Change Adaptation (CCA) Priority Guidelines. Based in part on interviews with key State and County government agency personnel conducted in 2012, this report seeks to identify and assess a suite of management tools. These tools may aid not only in implementing the CCA Priority Guidelines, but may also serve as an effective first generation sea level rise adaptation strategy for Hawaii. The options presented in this report are not exhaustive and are intended to facilitate dialogue that will contribute to sea level rise adaptation guidance. The options must undergo further prioritization, refinement, and adjustment to the land use management process of each County prior to implementation. In addition, issues such as cost, resource allocation, and administrative feasibility must be more thoroughly identified and addressed.</p>
<b>Lead Agencies</b>	NOAA Coastal Resilience Networks (CRest) Program, State of Hawaii Office of Planning, University of Hawaii William S. Richardson School of Law
<b>Contacts</b>	<a href="http://planning.hawaii.gov/hawaii-state-planning-act/">http://planning.hawaii.gov/hawaii-state-planning-act/</a>

Required Resources	The project is funded by the NOAA Coastal Resilience Networks (CRest) Program, grant number NA11NOS4730130.
Feedback/Evaluation	<p>This draft report is intended for distribution to and review by the State of Hawaii Office of Planning and the Ocean Resources Management Plan (ORMP) Working Group, Integrated Planning Committee, and the county planning departments.</p> <p>This draft report does not represent the official position of the State of Hawaii Office of Planning at this time. The report is a starting point for further developing and implementing climate change, and particularly sea level rise, adaptation guidance at the state and county levels.</p>
